

SMS Text Messaging

Kingswood Health Centre uses text messaging for the following purposes:

- Appointment Reminders
- Communicating Results
- Passing on messages from the GP's and clinical team
- Sending information relating to health conditions (e.g. links to resources and information)
- Sending updates on medication requests or requests for information
- Sending updates on what's going on at the surgery and any changes we are making

This allows us to easily communicate with you without requiring you to call us or pop into the surgery. It saves appointments that could otherwise be given to people with urgent health problems. It keeps you updated on what we're doing.

If you would like to opt-in to text messaging, or opt-out, or update us with your mobile number, please email kingswoodhealthcentre@nhs.net
